Check out the best online design and layout tools One of the main goals to any new family is to have a home.. Features • 4-step design • 2D and 3D room view • Final price calculator • Save to and Open from IKEA IKEA Home Planner is a program that works in four steps; you can switch between 2D and 3D views at any time and also you can get back to any previous step just with a mouse click.. I was able to re-flash the card using 'voiceover' which makes the computer read aloud what is showing up on screen, so i wasn't tottaly 'blind' while doing it.
