Free with new Macs or \$4.99 - Download now
Logic Pro X
Logic Pro X is Apple's pro-level music editing software that still manages to be accessible to beginners.. The app is available at a price of \$19.99 and requires OS X 10.5 or later
Mixxx: If you are looking for a free app to become a DJ, Mixxx is the perfect app for you.. If you're not satisfied with the instruments available, you can also purchase instrument packs to get different sounds.

Whether you're just a novice or a seasoned pro, a DJ or an acoustic guitar player, there's a music editing app for you!
GarageBand
Apple includes their entry-level GarageBand music editing app with every new Mac.. The powerful app has all the tools you could want for mixing, editing, and songwriting, with a massive library of instruments and effects.

Interesting
If you are a budding musician, with all these features and price you can record your first album.. That means, if you're new to music or a hobbyist, GarageBand is where it's at
GarageBand uses the same Drummer digital session player as Logic Pro X (though to a lesser extent in terms of available sounds) and is the perfect app to help you start creating and mixing songs — especially if you're a super novice.
